PRIMARY EXAMINER

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 1 last line "secured" has been changed to --secure--.

The following is an examiner's statement of reasons for allowance: Claim 1 defines over the prior art of record by claiming a brake disk for cycle brake systems with the brake disc having an outer peripheral portion, a hub portion, an air circulating device provided on the brake disc and inclined relative to the brake disc to propel and circulate air around the brake disc when the brake disc is rotated the air circulating device including a plurality of fan blades secured between the outer peripheral portion and the hub portion of the disc and including a plurality of spokes secured between the outer peripheral portion and the hub portion of the brake disc and the fan blades being secured to the spokes and a plurality of pads disposed between the fan blades and the spokes to inclinedly secure the fan blades to the brake disc.

The newly cited references to Smirl and Izumine have been cited for showing related features. However the elements at 13 and 23 in Smirl and elements 6 and 9 in Izumine are not considered to be an air circulating device or to comprise fan blades, as claimed in claim 1.

The prior art of record does not anticipate or render obvious the claimed limitations set forth in claim 1 above.

Art Unit: 3683

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
